COLTRANE MOMENTO

Performance to remember

With the new Momento, the Coltrane lineup is complete. This new reference model employs four 9 ceramic woofers, four 9 passive radiators, and one 7 ceramic midrange driver, all from Accuton, plus a 1 diamond tweeter from Jantzen Audio. The body of the cabinet is made of 20mm carbon fibre, while the front, back, top, and bottom are made of 30mm solid wood and 30mm laminated wood. The stands are made of polished stainless steel with carbon fibre pucks and cones by Black Diamond Racing.

The Momento is very close to the Coltrane Supreme In performance. The sound of this loudspeaker system is a breathtaking experience, with extreme detail, clarity, speed, dynamics, and resolution combined with a deep, wide soundstage and extremely good bass performance. The new passive radiators contribute to the system's even, highly-controlled bass and create a realistic, full-bodied performance.

The new Marten Coltrane Momento is a true reference loudspeaker.

Features

The newly-developed bass system employs four 9 ceramic woofers and four custom-made 9 aluminium passive radiators.

The bass level is adjustable in three steps (0, -1, and -2 dB between 50 and 120 Hz).

The custom-made 26mm diamond tweeter come from Jantzen Audio. Diamond is one of the most rigid materials known to man. There is virtually no resonance, and diamond tweeters produce a pure, uncoloured, distortion-free sound.

The midrange drivers have resonance damping and laser-drilled holes in the ceramic cones. This simplifies the crossover and provides even lower distortion in the crucial midrange area.

The refined, extremely high-quality crossovers feature components that include silver- and copper-foil coils and pure copper- and silver-in-oil capacitors from Jensen.

The internal wiring is custom-made by Jorma Design and consists of their top-of-the-line Prime cable.

The body of the cabinet is made of 20mm carbon fibre laminate, with 30mm solid wood and 30mm laminated wood front, back, top, and bottom. There is virtually no resonance in this cabinet.

The stands are polished stainless steel stands with Black Diamond Racing pucks and cones.

Finishes: Piano black sides with oak, maple, cherry, or walnut wood panels.

COLTRANE MOMENTO

Technical specifications

Frequency range	20-55000 Hz \pm 2dB
Power rating	350 W
Sensitivity	91 dB / 2.83V
Impedance	6 ohm (4.3 ohm min)
Type	3-way passive radiators
Drive units	4x9" ceramic , 4x9" aluminium (passive), 1x7" ceramic, 1" diamond
Crossover frequency	Second order: 400 & 2900 Hz
Terminals	WBT Nextgen bi-wiring
Internal wiring	Jorma Design Prime
Cabinet	20mm:s carbon fibre laminate sides, 30mm solid wood and 30mm laminated wood front, back, top and bottom
Stands	Polished stainless steel with Black Diamond Racing double pucks and cones
Dimensions (WxHxD)	390 x 1660 x 600 mm 15.4" x 65.4" x 23.6"
Net weight	135 Kg (298 lbs)
Finishes	Piano black sides with oak, maple, cherry or walnut
